Using Video Player Guide

Studio+ allows easy video sharing, distribution, review and annotation with its unique video player. **When you open a video file from any of your projects, you'll see this video player page and controls.**

 **Play/Pause**

 **Rewind/Fast Forward**

 **Previous/Next Clip**

 **Previous/Next Frame**

 **Previous/Next Second**

 **Previous/Next 30 Seconds**

 **Show Full Screen**

 **Add New Annotation**

 **Add New Subclip**

 **Upload ALE List**

Three other function controls:

- a) Create Annotations,
- b) Create Subclips,
- c) Upload ALE

are explained in further detail in individual quick start guides.
